BILATERAL MEETINGS

(01:00 p.m. - 04:00 p.m.)

DESCRIPTION ASSIXTO offers home care services for the elderly, for people with disabilities, for children, for chronically ill people, etc., and supports families in their darkest times. ASSIXTO was founded in 2008. One year after its foundation it was already a very successful company and was soon able to start its franchise business aiming to reach all Italian cities. Assixto Franchise Offer ASSIXTO provides franchisees with theoretical training on franchise management and know-how, and it also guarantees a dedicated assistance. The capital investment required is one of the smallest on the market! Franchisees do not need to have experience in the social care sector as full training is provided by the franchisor. Only determination and a strong will are really essential to be successful.
